

Policy Type List

- [Restriction Policy](#)
- [Inclusion Policy](#)
- [Exclusion Policy](#)
- [Default Deny Policy](#)
- [Chaining Policy](#)

Restriction Policy Creator

A **Restriction Policy** does not allow a person to use, retrieve, or both use and retrieve a variable with a certain attribute.

Policy Name (Optional)

Please specify a policy name if desired.

Policy Description (Optional)

Users may not find the home address of members of the database.

Namespaces

Please provide the namespaces you wish to be used in the policy. Place each URI on its own line. Make sure to separate them with commas, and provide a unique prefix for each.

@prefix ex: <http://example.com/#>.

Included Attributes

Please list the attributes that may not be included, and whether for retrieval, use, or both. Please remember to write the attributes using the correct prefix

Variable:

Use Retrieve Both
